TRADEMARK NITROGEN

(800) 424-9300

SAFETY DATA Substain-N[®] 28-0-0

Section 1 – Identification				
Product	Substain-N® 28-0-0	Recommended Use:		
		Used as a fertilizer in agricultural applicaltions.		
Manufacturer	TradeMark Nitrogen Corp.			
Address	1216 Old Hopewell Road, Tampa, FL 33619			
Phone	(813) 626-1181			
24 Hour Emergency	Chemtrec			

Section 2 – Hazard Identification

Contact

Signal Word: WARNING

Hazard Statements

H303 May be harmful if swallowedH315 Causes skin irritationH320 Causes eye irritationH335 May cause respiratory irritation

Precautionary Statements:

P101: If medical advice is needed, have product container or label at hand.
P102: Keep out of reach of children.
P103 Read label before use
P264 Wash hands thoroughly after handling
P280 Wear eye protection, protective clothing, protective gloves
P301+P330 IF SWALLOWED: Call a POISON CENTER or doctor / physician if you feel unwell
P302+P352 IF ON SKIN: Wash with plenty of water
P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing

P332+P313 If skin irritation occurs: Get medical advice / attention

P337+P313 If eye irritation persists: Get medical advice / attention

P501 Dispose of contents / container according to local, regional, national, and international regulations

Section 3 – Composition					
Ingredients	Component	CAS. No.			
A proprietary aqueous solution of;	Urea (CO(NH ₂) ₂)	57-13-6			
	Triazone	7098-14-8			
	Water	773-18-5			

Section 4 – First Aid	I Measures					
Inhalation	If inhaled: Remove person to fresh air and keep comfortable for breathing. Provide artificial respiration if necessary. Seek medical attention if necessary.					
Skin Contact	If on skin (or hair): Take off all contaminated clothing. Rinse skin with soap and water for at least 15 minutes. Seek medical attention if irritation persists. Wash contaminated clothing before reuse.					
Eye Contact	If in eyes: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Seek medical attention if irritation persists.					
Ingestion	If swallowed: Do NOT induce vomiting unless directed to do so by medical personnel. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Never give anything by mouth to an unconscious person. Seek medical attention.					
Acute Health Hazards	May cause mild eye irritation. Prolonged skin contact may cause irritation with redness and itching. Inhalation of mists may cause upper respiratory tract irritation. Swalling large amounts may cause gastric irritation.					
Chronic Health Hazards	None expected under normal conditions. Prolonged skin contact may result in dermititus (inflamation and redness of skin).					

Section 5 – Fire Fig	hting Measures
Suitable Extinguishing Techniques & Equipment	Not combustible or reactive, use extinguishing media suitable for surrounding material. Wear self-contained breathing apparatus and full protective gear.
Chemical Hazards From Fire	In a fire this material may decompose and produce carbon oxides, oxides of nitrogen and ammonia.
Special Fire Fighting Procedures	Use extinguishing agent most appropriate to surrounding materials.
NFPA Rating	Health - 1 (Slight) Fire - 0 (Least) Reactivity - 0 (Least)

Other	Do not allow run-off from fire fighting to enter drains or water courses.
Section 6 – Accider	ntal Release Measure
Personal Precautions	Avoid splashing. Prevent exposure to spilled material with the use of proper PPE.
Protective Equipment	PPE should include gloves, goggles and protective clothing.
Containment	Avoid release to environment. Control the flow of product using dikes of soil, sand bags or other commercially available inert sorbent socks or booms.
In Case of Spill	Absorb product with inert absorbent. Avoid splashing or spraying. Contain and pick up spill in diked area. Prevent discharge to sewers or water ways. If uncontaminated, recover and re-use.
Section 7 – Safe Ha	ndling & Storage
Precautions for Safe Handling & Storage	Store in a well ventilated cool dry place. Containers should be kept closed and properly labeled. Keep away from open flames, hot surfaces and sources of ignition. No smoking, eating or drinking while using this product. Avoid all unnecessary exposure. Do not breathe mist, vapor or spray. Store IBC's and other similar containers at moderate temperature (less than 105F / 41C).
Incompatibility	Store away from incompatable materials.
Section 8 – Exposu	re Controls / Personal Protection

Section 9 – Physica	I & Chemical Prop	perties					
Appearance and Odor	Clear, colorless liqui	d may have a slight		Specific Gravity	1.24 - 1.281 @ 68°F (20°C)		
Boiling Point	220°F at 1 atmosphere (104.4°C)			Molecular Weight	No Data Available		
Freezing Point	No Data Available			Solubility in Water	Miscible in water		
Vapor Pressure	No Data Available			Flash Point	Not flammable		
Weight per Gallon	10.5 lbs/gal @ 68°F			pН	9 - 11		
Gallons per Ton	190 gal / ton			Salt-Out Temp	0 - 5°F (-1517°C)		
Flammability Limits	No Data Available			Auto Ignition Temp	Not Flammable		
UEL	No Data Available			LEL	No Data Available		
Section 10 – Stabili	ty & Reactivity						
Reactivity	Product is not reactive	ve under normal condition	ons. Avoid interact	ion with heat (flam	es), oxidizers, acids or alkalis.		
Stability	Product is stable und	der normal conditions.					
Hazardous Reactions	If mixed with chlorine	e or hypochlorites, it may	y form nitrogen tric	hloride which may	explode spontaneously in air.		
Conditions to Avoid	Keep away from direct heat sources. Avoid direct sunlight. Avoid extreme high temperatures and extreme low temperatures. Keep from freezing.						
Incompatible Materials	erials Strong oxidizing materials, strong acids, halogenated compounds, copper, zinc and their alloys, including brass, bronze and galvanized materials. Contact your sales representative or a metallurgical specialist to ensure compatability with your equipment.						
Hazardous Decomposition Products	Extreme heat may ca	ause decomposing to ca	arbon oxides, amm	onia and nitrogen	oxides.		
Section 11 - Toxico	ology Information						
Routes of Exposure	Inhalation, ingestion						
Symptoms and Signs	Eyes	Mild eye irritation.					
of Exposure	Skin	Mild irritant.					
	Inhalation May irritate respiratory tract and mucous membranes.						
	Ingestion	Can cause abdominal	pain, vomiting, dia	rrhea and methem	oglobinemia.		
Long Term Effects	Methemoglobinemia is the primary long-term health effect of over-exposure.						
Toxicity	No limits have been set for this material.						

Acute Toxicity	Product	Criteria	Species	Dose		
	Urea	LD50 Oral	Rat - Male, Female	8,471 mg / kg		
Specific Target Organ Toxicity (Single Exposure)	No Data Available					
Specific Target Organ Toxicity (Repeated Exposure)	No Data Available					
Exposure Symptoms						
	Eve contact:	Irritation, watering				
	Inhalation:	May cause respiratory irriation				
	Skin Contact:	May cause mild skin irritation				
	Ingestion:	Over exposure by inge stomach pains, diarrhe	estion is unlikely un ea.	der normal working	g conditions. Adverse symptoms may include nausea or vomiting,	
Potential Chronic Health Effects						
	General	No known significant e	effects or critical ha	zards		
	Carcinogenicity	Not classified				
	Mutagenicity	Not classified				
		Not classified				
	Effects	Not classified				
	Fertility Effects	Not classified				
California Prop 65	WARNING: This product is not listed on the California Prop 65 database. For more information go to www.p65warnings.ca.gov					
Section 12 – Ecolog	gical Information					
Water	High concentrations	may be harmful to fish a	and other aquatic o	organisms.		
Ecotoxicity						
	Product	Criteria	Result	Species	Exposure	
	Urea	Acute EC50	3910000 μg/l fresh water	Daphnia - Daphnia Magna - Neonate	48 hours	
		Acute LC50	1,000 mg/l Marine Water	Crustaceans - Chaetogammaru s marinus - young	48 hours	
		Acute LC50	5,000 µg/l fresh water	Fish - Colisa Fasciata - Fingerling	96 Hours	
		Chronic NOEC	2 g/L Fresh water	Fish - Heteropneustes fossils	30 days	
		LC50	>6810 mg/l	Leuciscus Idus	96 Hours	
Persistence and Degradability	Product is biodegradable under aerobic & anerobic conditions.					
Bioaccumulative potential	The potential for bioconcentration in aquatic organisms is expected to be low.					
Mobility in soil	No data available for this product.					
Other adverse effects	Harmful to aquatic life. Harmful to the environment if released in large quantities. Excessive nutrient runoff to a body of water may result in eutrophication.					

Section 13 – Dispos	sal Consideration	ıs							
Waste	This material is harmful to the aquatic environment. Keep out of sewers and waterways. Disposal must be done in accordance with local, state and federal environmental regulations. Place waste in an appropriate container with correct labeling.								
							ontainer with correct		
Additional Information	Dispose of used containers at an approved waste handling facility. Empty containers may contain residue of the product, follow label warnings even after container is emptied.								
Section 14 – Transp	oort Information								
DOT	Not regulated as d	angerous goods							
IMDG	Not regulated as da	angerous goods							
IATA	Not regulated as da	angerous goods							
TDG	Not regulated as da	angerous goods							
Mexico Classification	Not regulated as da	Not regulated as dangerous goods							
Section 15 – Regula	atory Information								
United States - SARA Hazard Category	This product has been reviewed according to the EPA Hazard Categories promulgated under Sections 311 and 312 of Title III of the Superfund Amendments and Reauthorization Act (SARA) and is considered, under applicable definitions, to meet the following categories:								
	Fire - No	Pressure - No	Reactive - No	Acute - No	Chronic - No				
SARA Title III Information	This product conta Reauthorization Ac	ins the following subs at of 1986 and 40 CFF	tances subject to the R Part 372:	reporting requirem	ents of Title III (EPCRA)	of the Superfund Ame	endments and		
	Chemical CAS No. CERCLA RQ SARA Reporting (lbs.)								
				302	304	313			
	Urea	57-13-6	N/A	N/A	N/A	N/A			
CERCLA / Superfund, 40 CFR Part 117, 302	If this product contains components subject to substances designated as CERCLA reportable Quantity (RQ) Substances, it will be designated in the above table with the RQ value in pounds. If there is a release of RQ Substance to the environment, notification to the National Response Center, Washington DC (800-424-8802) is required.								
TSCA	All components of this product are listed on the Active TSCA inventory.								
Section 16 – Other	Information								
Issue Date	5/30/2024								
Date of Revision	May 2024 revision	prepared in accordan	ce with 29 CFR 1910	.1200 Appendix D	to meet Global Harmoniz	zation Standards.
