Press Release

TRADEMARK NITROGEN BOLSTERS SALES TEAM

Tampa, Florida (July 27, 2022) – TradeMark Nitrogen, a manufacturer and distributor of agriculture and industrial products, has added two new members to the company's sales staff to focus on industry-specific sales growth and market expansion.

John Mikulka will lead business development and industrial sales. John brings over 20 years of professional sales and account management experience throughout North America. His industrial sales role will focus on expanding TradeMark Nitrogen's high-quality products to non-agriculture industries, such as mining, quarrying and other industrial applications.

Dalton Farr will be responsible for selling the company's nitrogen-based and multi-nutrient products into the agriculture market. Dalton, a University of Florida – Gainesville graduate, has a strong agriculture knowledge and background that will bring solutions to our customers with our product portfolio.

"We are excited to have John and Dalton on board to help us increase sales in areas we have a presence, but also expand into new geographies," said Mike Barry, President of TradeMark Nitrogen. "They each have an area of expertise and focus that will provide support and solutions for our customers."

TradeMark Nitrogen Corporation is a manufacturer and distributor of agricultural and industrial products for our partners around the globe. TradeMark Nitrogen operates a Nitric Acid and Ammonium Nitrate Solution manufacturing facility 24 hours a day, 7 days a week, 365 days a year in Tampa, Florida in order to meet the unique demands of all of our partners around the globe. For more than 35 years, we have continued to "Redefine Nitrogen" by providing our customers with world class products, service, and reliability. Visit www.trademarknitro.com for more information.
