

12%

**NITRIC
ACID**

Nitric Acid

Nitric Acid can be used to adjust ph of fertilizer blends, production of fertilizer nitrate and to buffer ph of irrigation water.

UN 2031

PRODUCT ANALYSIS:

Percent Nitric Acid.....**55%**

Total Nitrogen.....**12%**

Handling & Storage

This product is intended to be used and handled properly. Use in accordance with recommendations of a qualified individual.

Nitric Acid is a highly corrosive and strong oxidizing agent that needs to be stored in corrosive resistant containers or stainless steel when possible. Store in a well ventilated cool dry place. Containers should be kept closed and labeled properly. Liquid is an oxidizer and may cause fire with combustibles. Keep / store away from extremely high or low temperatures, direct sunlight, heat, ignition sources, combustible materials and incompatible materials.

DANGER

May intensify fire; Oxidizer. Causes skin burns and eye damage.

PRECAUTIONARY STATEMENT

Do not breathe mist or vapor. Wash thoroughly after handling. Use only outdoors or in well-ventilated area. When handling product; wear protective gloves, protective eyewear, protective clothing and face protection.

HAZARDS

Inhalation If inhaled: Remove person to fresh air and keep comfortable for breathing. Provide artificial respiration if necessary. Seek prompt medical attention.

Skin Contact If on skin (or hair): Take off all contaminated clothing. Rinse skin with water for at least 15 minutes. May cause severe burns. Seek prompt medical attention.

Eye Contact If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Seek prompt medical attention.

Ingestion If swallowed: Rinse mouth. Do NOT induce vomiting. Drink large amounts of water (or milk if available) to dilute acid. Never give anything by mouth to an unconscious person. Do not use chemical antidotes or neutralizers. Seek prompt medical attention.

Acute Health Hazards: Irritating and corrosive. May cause skin and eye burns, ulcers, breathing problems, lung irritation/damage or pneumonia. Delayed pulmonary edema may result.

Chronic Health Hazards: Symptoms from inhalations of Nitric Acid vapor and Nitrogen Oxides may be delayed. Do not breath these gases. May be corrosive to eyes, teeth, mouth, respiratory tract and stomach.
